

Events

EVENTS ARE WORKSHOPS AND MEETINGS ORGANIZED BY A WORKING GROUP. THEY ARE MEANT TO BE ONE OF THE MAIN WAYS TO ENFORCE THE MACSI-NET NETWORK.

OTHER INTERESTING MEETINGS

RULES AND **FORMS** HOW TO PREPARE AN EVENT

MACSI-net INFORMATION FOR DISTRIBUTION AT YOUR EVENT

Date	Past Events	WG	Location
29 March - 2 April 2004	European Study Group with Industry	WG10	Oxford (UK)
17-18 March 2004	Industry challenges in Geometric Modelling and CAD	WG17	Darmstadt, Germany
19-20 February 2004	Coupled Problems and Model Reduction	WG2 + WG13	Wuppertal, Germany
19-21 February 2004	Filtration in Porous Media and Paper Manufacturing (final meeting)	WG14	Are, Sweden
16 January 2004	Random Geometries in Biomedicine	WG12	Milano, Italy
27-28 November 2003	Information Technologies and Numerical Techniques for the Agro-food Sector	WG7	Barcelona, Spain
21-22 November 2003	Numerical Simulations for Ultrasound Imaging and Inversion	WG1	St. George, Austria
21-22 November 2003	Filtration problems in porous media and paper manufacturing	WG14	Stuttgart, Germany
5-6 November 2003	Glassdays 2003	WG4	Eindhoven, The Netherlands
27-29 October 2003	Modeling, Analysis and Optimization of Coupled PDE Systems for Industrial Design	WG1	Soprintendenza, Napoli
22-23 September 2003	Optimization and Coupled Problems in Electromagnetism	WG2 + WG13	Napoli, Italy
18-19 September 2003	Topology Optimization Days	WG1	Thurnau, Germany
1-2 September 2003	Industrial Challenges in the simulation of evolving interfaces	WG17	Brussels, Belgium
26 August 2003	Mathematics for Industry	WG10	Sonderbock, Germany
22-31			

August 2003	Modelling Week	WG10	Bristol,
12-13 June 2003	Cardio Point	WG16	Graz, Au
9-10 May 2003	Filtration Problems in Porous Media and Paper Manufacturing	WG14	Eindhove
2-3 May 2003	Reduced Order Modeling and Coupled Problems in Telecommunication	WG 2 + WG13	Zürich,
31 March - 4 April 2003	Study Group with Industry	WG10	Bristol,
31 March- 1 April 2003	Industry Challenges in geometric modeling and CAD	WG17	Darmsta
17-22 March 2003	Summer School Jacques Louis Lions 2003	general	Montecat
5 March 2003	Shape and size in tumor growth	WG12	Torino
17-21 February 2003	Study Group with Industry	WG10	Leiden,
16-17 December 2002	Open Industrial Days Innovative Methods and Tools for Challenging Acoustic Applications	WG3	Paris,
12-13 December 2002	Model reduction	WG2	Milan,
27 November 2002	MACSI-net Midterm meeting	general	Amsterc NL
22-23 November 2002	Filtration problems in porous media and paper manufacturing	WG14	Kaiserslat G
21-22 November 2002	Glass Days 2002 (pdf)	WG4	Watten:
21-22 November 2002	Parameter Identification in Materials and Structural Engineering	WG1	Milan,
6-7 November 2002	Industry Awareness Days	general	Athens,
4-5 July 2002	Problems of Shape and Form in Medicine and Biotechnology	WG12	Milan,
25 June 2002	Industry Day on Scientific Computing in Electrical Engineering	WG13	Eindhove
15-18 June 2002	PARA 2002 Conference	WG9	Espoo (
25 May 2002	Kick off meeting	WG 14	Götebor

8-9- May 2002	Recent Advances in Concrete Research, Modelling and Application	WG11	Lódz,
22-23 April 2002	Optimization, Variational Models and Inverse Problems in (Medical) Imaging	WG1	Innsbruck
11-12 April 2002	Industry/Training meeting	general	Barcelona
4 April 2002	Problems from the Textile Industry	WG10	Lancaster
1-2 February 2002	Normal and High Performance Concrete Subject to Fire	WG11	Udine
30 November 2001	Normal and High Performance Concrete Subject to Fire	WG11	Padova
26-27 November 2001	Mathematical and Computing Techniques for Agro-food Technologies	WG7	Barcelona
19-20 November 2001	Multidisciplinary Optimization and Inverse Problems (kickoff)	WG1	Vienna
8-9 October 2001	Model reduction	WG2	Eindhoven
4-5 October 2001	Glass Days	WG4	Kaiserslautern D
27-28 September 2001	Mathematical Modeling and Simulation in Acoustics	WG3	Paris,
22 May 2001	Industrial Days on Affordable parallel computing	WG9	Egmond
23-24 November 2000	Kick-off meeting	general	Amsterdam NL

Date

**Other Interesting Meetings
(beyond MACSI-net's responsibility)**

Location

3-4 May 2004	NAFEMS Seminar Simulation of Complex Flows (CFD)	Wiesbaden, G
21-24 June 2004	13th European Conference for Mathematics in Industry	Eindhoven, NL
24-28 July 2004	Eccomas 2004, 4th European Congress	Jyväskylä, Finland

Rules

How to prepare an Event:

For a MACSI-net Event we have stipulated specific requirements for a subsidy to be granted. Take good notice of these requirements as listed below. It is in our joint interest to make the procedure as simple as possible. We therefore ask you to use:

1: this form to [submit a request](#) for an event;

2: this form to [announce the event](#) on the "event" page (this page), after the request has been approved;

3: this form to [report about an event](#). You need to report about the event within one month after it has taken place. The form has no fields dedicated to financial accounting. The financial report has to be sent separately to the MACSI-net secretariat also within one month.

To enforce the network you are kindly asked to distribute [this 4 page MACSI-net brochure \(PDF\)](#) among the participants of your event and to inquire about their interest in registering in MACSI-net. Furthermore there is this [Word document containing inquiry](#) for distribution among the participants of the event.

There is substantial support for electronic services. So if you have ideas or wishes about services which support your WG activities, such as an electronic forum, please contact the MACSI-net organization through Paul de Haas, p.c.a.d.haas@tue.nl.

Be sure that:

- A** The objectives of the event are explained clearly.
- B** The objectives are in line with the strategic goals of MACSI-net.
- C** The subject of the event fits in the application areas of MACSI-net and must therefore be linked to at least one Working Group. The [Executive Committee](#) will see to it that the application areas are covered more or less homogeneously, with respect to location, area of activity, and time.
- D** There is a substantial relevance for industry.
- E** There is a list of intended participants. A substantial percentage of them come from industry.
- F** Special guests for which costs of travelling and accommodation need to be funded have to be given permission from the EU. To this end they need to be clearly identified and their participation motivated. Especially for non-European citizens the application must be more in depth.
- G** The organiser will write a report about the outcome. This report has to be sent to a member of MACSI-net especially assigned for the event in order for this member to distribute the money and to moderators of supervising Working Groups.
- H** It is made clear what kind of report might be expected as a result of this Event. Take note of the contents of [the electronic form for reporting](#).
- I** There is a detailed budget: (costs for travel and subsistence are supplied for the members, the budgets of the members). A specification should be made of costs for:
 - Announcing and reporting
 - Inviting special guests
 - Renting (for the meeting to take place)

N.B. Labour costs are not refundable.

Notes:

1. *The organiser should conduct its own financial administration and report cost statement to the co-ordinator. The member is responsible for the financial administration. The organiser presents a written report (electronically) with month after the event to the moderator and the co-ordinator.*
2. *The length of the report should be in accordance with the importance of the event. The main purpose is that eventually the Working Group has a report on activities and outcome (to be ready at mid term and at the end).*
3. *By definition only those whose names are recognised as participants in the programme by our project officer at the EU will be eligible for travel and living money e.g. (This point is important when your proposal deals with inviting guests).*
